## **Temperature Checks & Security**

### **Move-in/Move-out:**

Motor Trend Group (also known as Motor Trend Auto Shows) management will conduct temperature checks of all exhibitors, general service contractors, EACs and vendors daily prior to entrance to the exhibit hall. Each day, all individuals working the event will need to proceed to the Orange County Convention Center Security Checkpoint and then to the dock for temperature checks.

The North Building security checkpoint is located at the North Employee Entrance Lobby and will be constantly monitored by OCCC security staff. Signage will be placed at the location guiding all individuals arriving on foot to the appropriate entrance. All individuals will be asked to present their worker or event ID at this time.

(Above items will be reviewed with the General Service Contractor and Union Reps and may be adjusted based on local health directives)

### **Show Days:**

Motor Trend Group (also known as Motor Trend Auto Shows) management will maintain a separate entrance for all exhibitors, general service contractors, EACs, vendors, to conduct temperature checks. Wrist bands will be provided each day once a successful temperature check is performed.

## **Exhibit Hall**

The capacity in the exhibit hall remains the same as prior years, but physical distancing will be practiced among exhibitors, vendors and show attendees.

Exhibitors and vendors should plan their exhibits to maintain physical distancing guidelines and implement a cleaning/disinfecting protocol.

Show management will make periodic public service announcements through an overhead microphone to remind exhibitors, vendors, attendees and staff of proper hygiene and physical distancing. Currently, the announcement will be made every two hours starting at 11 a.m. through 8 p.m.

The Orange County Convention Center has implemented a health and safety announcement that will be played in the lobbies and concourse areas of the North Building. The overhead announcement will be played every 60 minutes starting at 8 a.m. through 8 p.m.

## **Show Attendees**

We are encouraging attendees to purchase electronic tickets in advance and will have contactless ticket scanners at the entrance.

Show management will place information on the event website and on signage in the concourse areas reminding attendees and visitors to stay home, or in their hotel room, if they do not feel well or have any of the following symptoms:

*Fever, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea.*

## **Personal Protective Equipment (PPE)**

In accordance with local, state, and CDC guidelines and mandates, masks are required for all exhibitors, vendors, EACs, staff, and attendees to the Central Florida International Auto Show.

## **Guest Hygiene and Transmission Prevention**

For the health and safety of guests, the Orange County Convention Center has placed hand-sanitizing stations throughout the concourse in the North Building. Mobile hand washing stations will be relocated to high-traffic locations throughout the concourse.

The auto show will use Medical Station #7 as a quarantine room if needed during the event.
